here below! What says he now? A message from
him to his brethren might do them much good;
and save me, perhaps, much trouble.—But I wish
in vain—the dead will not hear me; or, if they hear,
they will not answer—I must turn, then, to the liv-
ing, and pursue my plan.

I was observing, in the conclusion of my last num-
ber, that it seems to have been a settled agreement
between Presbyterians and Independents, that the
Church in America should suffer no rest, but still be
pursued by them, as it were by alternate attacks
and fury. No sooner, therefore, was it found that
the charges levelled against the society and their
missionaries, by the Presbyterian historian of New-
York, had passed unnoticed, and that his work was
like to prove but a mortal one; than the indepen-
dent Boston champion, the great Dr. MAYHEW,
like another GOLIATH, appears in the field, with all
the old artillery, that had been so often played off
against the Church, charged anew and double.
The reader will observe above, what a dreadful
volley he lets fly at the Bishops and Hierarchy, as
it were at the first onset—But that is little to what
follows.—

"The Church herself is a persecuting Church.

(1) Her constitution and worship unscriptural" (2)
"Her ministers in New-England dare to wear 'jo-
vial countenances' (3) They come into New-Eng-
land sheepfold, by indirect pretences; as thieves
and robbers (4)—gaming, swearing, &c. are beyond
all comparison more frequent in New-England,
since the Church prevailed there, than before. (5)
There is less real religion than if the society's mo-
ney expended there had been sunk in the ocean. (6)
He never knew a proselyte from his Church to ours,
brought back to a Christian life. (7) If churchmen
were exempted from ministerial taxes in New-Eng-
land, almost all who loved their money better than
any thing else might in a few years have adorned
the communion of the Church." (8)

Mighty kind, all this, to the members of the
Church in New-England! And now, what says the
benevolent Doctor to the society and the members
of the Church in Old England? Why "the soci-
ety have, in a great measure, neglected the ends of
their institution. (9) Their essays for converting the
Savages have been sparing and feeble. Mr. Bar-
clay had not half a proper support; the mission was
starved, and he could obtain no
preceptor or school-master"
which conduct of the

And now, Mr. Centinel, what think you of your
master MAYHEW? Have you such a grand sight in
all your work as this, viz. that your good party is
the flying WOMAN, and the Church and Bishops
the pursuing SERPENT? Why could you not, when
retailing Dr. Mayhew, give us some of his best
touches. But perhaps he did not suit you in every
thing. For, furious as he is in certain places, he
has spoiled the whole by concessions in other places.
Although he belabours the society so vehemently,
and presents them with the guilt of Annanias and
Sapphira, yet (good man) he declares it "by no
means his intention to charge that venerable body
with any wilful known misconduct, or improper ap-
plications of monies even though any incautious ex-
pression should at first view have that appearance."
For no one, he says, "who ever read their char-
ter, can possibly imagine that their care and charity
ought to be confined to the heathen slaves in, or the
savages bordering on, the plantations."

Again, altho' "Bishops are mitred lordly succe-
sors of the fishermen of Galilee; tho' they have as-
cended from the dirt to the skies; though they are
serpents spuing out whole floods to drown the good
woman"—yet he declares, all this while that he is
not speaking one word of any Bishops that lives in
the present age, but those that lived near a century
ago—for he would not have it thought that "he
designs to dishonour the more moderate and Chris-
tian spirit of the English Bishops since the revolu-
tion, and particularly of this day, by comparing it
to the persecuting anti-Christian spirit of many pre-
lates, antecedent to that glorious era."

Amazing this! Though there is less religion in
New-England, than if the society's money had been
sunk in the ocean, yet he does not charge them
with improper application of their money—Though
he has described Bishops as monsters, yet he has no
fault to find with those that have lived since the revo-
lution—what then, in the name of sense, has the man
been writing about all this while?—Surely, he did
not expect that the King was to send over to Ame-
rica any Bishops that lived before the revolution,
for they are all dead-long since.

"Why then such dismal apprehensions? Why
such outcries? Where are the persecutors? Where
is the dragon? All the world must see—the doctor
himself might have seen, that his declamation was
the purpose; and, on his first re-
named of it, and
refs would

ters. He calmly tells him that—"if mitres offended him, our Bishops wear none—if they are stiled Lords, it is because, by the ancient constitution of our country, they sit in the upper house of Parliament;" and adds (what he still farther proved by his own example) "that men may be Lords without being lordly." As to fishermen of Galilee, the answerer says that he cannot tell whether the Doctor means "that all ministers of Christ should follow some trade, nor whether he follows any himself—but that reviling his brethren is certainly a very bad one."

BOSTON, October 17. JOURNAL OF OCCURENCES.

WE have received certain Accounts that at a Town-Meeting held at Norwich, a large and populous Town in Connecticut the 4th Instant, they voted, that their Representatives be instructed—"That the several Colonies within the Colony be obliged upon sufficient Penalty, to have a general Muster or Review of their respective Regiments, in order that the Militia be at all Times properly furnished—That proper Encouragement be made for necessary Manufactures in the Colony—and that the most effectual Measures be taken to keep up a Union with all the neighbouring Colonies," they also unanimously voted, "That they fully approve of and justify the Votes and Resolves of the Town of Boston in their late Meeting, of the 12th of September last, and the spirited Conduct of the Committee of Convention, declaring their Allegiance to his Majesty, George the Third, as well as their resolving in the most spirited Manner to maintain all their undoubted Rights and Privileges sacred and inviolable; that they consider the noble Cause we are engaged in, as the common Cause of their Country; and that they will unite both Heart and Hand in support thereof, against all its Enemies whatsoever."—A Captain of the Regulars having a Night before greatly insulted some young Gentlemen in the Coffee-House, calling them Liberty Boys, Rebels, &c. who he was come to take Care of, ordering them to disperse, and throwing out very indelicate Threatnings, being apprehensive of receiving a Caning from one of them, had the Precaution to come into King-Street with S. G. who brought the Riot Act in his Pocket, and its said, threatened to read the same unless the Gentlemen dispersed, which he has since declared was by Order of G—B—. A greater Indignity than which could not have been offered, and would have shown to what an odious Use, that Act may be applied by the Tools of Power. The Gentleman who had called said Officer to Account, took him into a private Room in the Coffee-House, after which he publicly asked Pardon of him, and the rest of the Company he had in his Cups affronted. It is to be hoped that this Specimen of the Spirit of the Inhabitants upon a justifiable Occasion, may prevent a Repetition of such gross Insults.

Oct. 18. Council summoned in the Morning of Yesterday, which broke up in the Evening, after coming into a Vote of the following Import—"His Excellency Gen. Gage, having acquainted the Board that he was in daily Expectation of the Arrival of two Regiments from Ireland to Boston: And this Board being desirous to do all in their Power to accommodate the King's Troops, agreeable to the Advice of the Parliament in that Case, advise, that

descended to come with Sheriff Greenleaf, and to use many Arguments and Devices in Order to effect their Removal; but he was plainly told, that it was their Opinion, and that of others, that they could not be legally turned out of Doors in Consequence of the Vote of Council, which was not an Act of the General Court, and that it surely could not be intended that they should be ousted in any other Way; to which his Honour replied, that the remaining Part of Government had given the Order. Several Persons have been taken up within these few Days by the Soldiery, and confined without Warrant for their so doing; some of our first Merchants greatly affronted by a Sea Captain or two, who have been, or probably will be called to Account therefor.—Gentlemen and Ladies coming into Town in their Carriages, threatened by the Guards to have their Brains blown out unless they stopped. Parties of Soldiers going about the Country in Disguise and pretending to be Deserters, are guilty of great Impositions, and may occasion much Mischief if not checked in Time.

Oct. 20. This Morning the Justices of the Town were called upon to meet the Governor, General Gage, and King's-Attorney, at the Council Chamber; when met the Governor required of them to provide Quarters for the Troops in this Town, but received for Answer, that they apprehended that this Application did not then come properly before them. About Noon the Inhabitants were greatly alarmed with the News that Mr. Sheriff Greenleaf, accompanied by the Soldiery, had forced an Entry Sword in Hand, into one of the Cellars in the Manufactory-House; Mr. Brown one of the Inhabitants, in attempting to disarm him, received several Thrusts in his Cloaths, the Sheriff's Deputy entered with him; he then gave Possession of the Cellar to some of the Troops: A large Number of Soldiers immediately entered the Yard, and were placed as Centinels and Guards at all the Doors of the House, and all Persons were forbid from going in and out of the same, or even coming into the Yard. The Plan of Operation being as it is said to terrify or starve the Occupants out of their Dwellings.—Great Numbers of the Inhabitants assembled to be Eye Witnesses of this Attack of the Sheriff, upon the Rights of Citizens, but notwithstanding they were so highly irritated at his Conduct, there was no outrageous Attempts made upon him or his Abettor, the People having had it hinted to them, that our Enemies in advising to this Step, had flattered themselves with the Hopes that some Tumult and Disorder would arise, which might be improved to our further Prejudice. The Sheriff refused giving Mr. Brown a Copy of his Warrant or Orders for this doing, and only referred him to the Minutes of Council for his Justification, a Copy of which was also refused him. We now see that the Apprehensions of the People respecting an ill Improvement of the late Vote of Council was not without just Grounds. This Night the Sheriff procured Guards of Soldiers to be placed at his House for his Protection, a Measure that must render him still more ridiculous in the Eyes of the People.

Oct. 21. The Siege of the Manufactory House still continues, and notwithstanding one of their Batteries has been carried by Assault; the besieged yet shew a Firmness peculiar to British Americans: The Children at the Windows crying for Bread this Morning when the Baker was prevented sup-

was an affecting Sight. were however afterwards with the Loss of some who were such an ill-consequence to carry out at

Oct. 22. This Morning we are told that the Sheriff, whom to carry on the Allusion we will call the General, has raised the Siege of the Manufactory, with the trifling Loss of all his Honour and Reputation—the Troops were withdrawn under cover of the Night, and it is hoped as the Season is now advanced, that they will be soon ordered into Winter Quarters at Castle Island; sufficient Supplies have however been sent into the Manufactory to serve in Case the Attack should be renewed. The G—r not liking the late Determination of the Justices who refused the Demand for Quartering, their Attendance on the G—r Yesterday was required, and they are to meet again this Forenoon. Reports that Commodore Hood has been sent for, and his Arrival from Halifax soon expected. A Court Martial, of which, by Commission from the General, Colonel Dalrymple is President, held this Day for the Trial of a Soldier of his Regiment for Desertion, who had been brought in by one of their decoy Parties. Plenty of Rum has procured many Whippings on the Common this Evening, the Men cannot be restrained from it in Town.

The Justices adhere to their Vote respecting the G—rs Demand for Quartering the Troops.

Oct. 23. Advice is received, that six more Regiments may be soon expected from Ireland, and another from Halifax. If Pensions of £. 10,000 Sterling per Annum had been settled upon G—r B— and his Partisans during Life, rather than making so unnecessary a Military Parade, it would have been a vast saving to the Nation. We have Accounts from Louisbourg, that several of the Settlers upon that Island have been lately killed by the Savages. This is what has been expected from the late withdrawal of Troops from that Place, and it is to be feared our Inland Settlements will suffer from the like Cause.

It is said orders will soon be given to prevent the exportation of either Naval or Military stores, gunpowder, &c. to any part of North-America.

It is said, that Major Rogers, late Governor of Michilimackinac, had made some very important discoveries since his confinement; accounts of which have been lately transmitted hither.

They write from Warsaw, that the Russian General Apraxin, after several forced marches, was arrived with his troops before Cracow, as well as the General Prozorowski; so that the Russians have now several thousands men before that place. 'Tis added, that the Confederates had made divers sallies, but were always repulsed with loss, though not without some blood being likewise shed on the side of the Russians.

Letters from the Lower Elbe say, that horses are buying up with great diligence in the countries of Holstein and Hanover for the service of the King of Prussia, whose infantry is going to be augmented with forty men in a company, one-half subjects of Majesty, and the rest foreigners. The soldiers

NEW-YORK, November 3.

Thursday last the General Assembly of this Pro-
vince met here, when his Excellency the Governor
was pleased to open the Session with the following
SPEECH, viz.

Gentlemen of the Council, and Gentlemen of the
General Assembly,

NO immediate Service of the Province, having
requir'd my convening you upon the Return
of the Writs for the late Election. I have delay'd
your Meeting 'till the usual Session of passing the
annual Bills, to avoid the Inconveniencies attending
a Session in the Summer Months.

It is with great Satisfaction I can now lay before
you, a Report of the Lords Commissioners for Trade
and Plantations, in Consequence of which His
Majesty has been pleased to direct, that the Regu-
lation of the Trade with the Indians, shall for the
future, be left to the Colonies, as the Importance
of such a Concern to them, must necessarily engage
their respective Legislatures in the Pursuit of Mea-
sures best calculated to answer the Purpose of his
Majesty's gracious Condescension, in committing
this valuable Branch of Commerce to their Man-
agement.

Gentlemen of the General Assembly,

The Advantages arising not only from the Inter-
course of Trade with the Indians, but from the
Maintenance of that Tranquility among them which
subsists at present, are so obvious as to require no
Arguments to enforce them: I shall therefore only
recommend it to you, that, to avoid any future
Cause of Dissatisfaction or Jealousy being given,
you will, by the most effectual Laws, prevent any
Settlements being made beyond the Line which
shall be agreed on by the Indians; punish all Frauds
and abuses which may be practis'd by the Traders
among them, and at the same Time pay a due Re-
gard to that Freedom of Trade which his Majesty
has graciously granted to all his Subjects by his
Proclamation in the Year 1763.

As I presume that such Parts of the late Plan
pursued by the Superintendants of Indian Affairs,
as have operated to the Benefit of Trade, and
given Satisfaction to the Indians, will be adopted
by you as far as Circumstances and Situations will
admit: These shall be laid before you, together
with the Reduction of such Posts as the Commander
in Chief of His Majesty's Forces has thought pro-
per to make, in Consequence of the Orders he has
receiv'd for that Purpose, that you may be better
enabled to regulate the Execution of such Plans as
you shall think most conducive to the public
Benefit.

The Accounts which are directed to be delivered
in to you by the Barrack-Master, will show that
the greatest OEconomy has been observ'd in issuing
the Sums granted for the Support of His Majesty's
Troops here, and that particular Attention has
been given to the Interest of the Province, as well
as to His Majesty's Service, on this Occasion.

I am extremely concern'd to be under a Necessi-
ty of mentioning to you, the Distresses to which
the unhappy Sufferers at Montreal have been again
reduc'd, from a second Calamity by Fire. The
Sentiments of Humanity which Misfortunes of this
Kind naturally excite, will, I hope, plead for them;
and I would with Pleasure see an example shew'd to
the rest of the Colonies, by a generous and suitable
Relief granted to Objects, whose present Situation
can be more easily imagin'd than describ'd.

Gentlemen of the Council, and Gentlemen of the
General Assembly,

I flatter myself that a just Sense of the Advantages
to be deriv'd to the Public, from your Unanimity
and Dispatch of Business, will have a due Influence
on your Proceedings during the Course of the Ses-
sion; and you may be assured of my ready Con-
currence with you in every Measure which may be
propos'd for His Majesty's Service and the Welfare
of the Province.

H. MOORE.

W. Nichol, Esq; late Speaker, having not attend-
ed the House, Philip Livingston, Esq; was chosen
Speaker, in his Room. We hear there are several
contested Elections, some of which will be scrutinized.
Extract of a Letter from a Gentleman at Fort Stan-
wix, dated the 17th October.

A great Body of Indians are already assembled
here, and by Express arrived Yesterday, from other

distant Tribes, at present on their Way hither, it
is judged that in few Days, their Number will be
increased to at least three Thousand. Sir William
Johnson, whose Attention to the Business of this
Congress is indefatigable, and who has a surprising
Influence over these Savages, has brought here,
Goods as well as Cash to a very large Amount, to
be distributed in Presents to the different Nations,
but by the Advices received Yesterday, of the great
Numbers coming in, he is apprehensive that what
he has at present here, tho' large, will be insuffi-
cient and therefore dispatched Expresses for a farther
Supply of both; he has also been necessitated as
Provisions fall short, to purchase a large Number of
live Oxen, and given Directions for more to be
brought here; in short, he devotes his whole Study
to promote the Matters of the Congress, which it is
thought will be attended with the most beneficial
Consequences.

The Boston Papers of Thursday last, contain no-
thing further relating to the Military, than is men-
tioned in the foregoing Journal,—except, that a
Writer asserts, the Advice given by the Council for
clearing the Manufactory House, was not intended
to prepare it for Reception of the Soldiers then at
Boston, but for those expected from Ireland after
the Barracks at the Castle, the Inns, Stables, &c.
should be filled.

Oct. 22. The Cockswain and 2 other Men belonging
to the Romney, were drowned by the oversetting of
a Skiff. The same Day arrived there the Magda-
len armed Schooner from Halifax, and on the 24th
sailed for that Place his Majesty's Ship Romney, i
Order it is said to bring Commodore Hood and Fa-
mily, who are to Winter at Boston. The University

SUPPLEMENT to the NEW-YORK JOURNAL,
OR GENERAL ADVERTISER.—NUMB. 1348.

[THURSDAY NOVEMBER 3, 1768.]

LEGHORN, July 25.

ACCORDING to our Letters from Corfica, the inhabitants of that island, finding that the French are determined to reduce them to submission, begin to defend their liberty vigorously. This they already have given many proofs of; and lately, when 18 French Soldiers endeavoured to land part of the French cavalry at St. Fiorenzo, they would not suffer them to land, and refused them a passage to Bastia. Other letters from Corfica advise, that there was a sharp engagement the 14th instant, between the Corficans and the French troops, commanded by the Count de Marboeuf, who attempted to advance into the country, but were repulsed, with the loss of 500 men, among whom were a great number of officers.

Leghorn, July 26. We learn from Naples, that the King of the two Sicilies by an edict lately published, has permitted his subjects to attack all Corfican vessels, and to consider them as enemies. They write from Corfica, that General Paoli has obliged all the Islanders to take the same oath that he tendered to them in 1764, when the French came to the assistance of the Genoese. The form of this oath is as follows:

"We, &c. do swear, and call God to witness, that we will sooner die than enter into any treaty with the Republic of Genoa, or submit again to its dominion. If the powers of Europe, and particularly France, have no pity for us, but will arm themselves against and endeavour to crush us, we will repel force by force; we will fight like desperate people who are resolved to conquer or die, till our forces are entirely exhausted, and our arms fall from our hands; and at last our despair shall support us to imitate the courage of the Saguntines, and sooner throw ourselves into the flames than submit to the insupportable and tyrannical Yoke of the Genoese."

L O N D O N,

Aug. 20. We hear from divers parts of America, that the whole of that large Continent are resolved to give a cheerful Compliance with our taxing Laws.

On Sunday last Mrs. Rachel Wilton, an eminent Preacher among the Quakers, Embarked for Philadelphia.

Aug. 23. By a private letter from Edinburgh, we learn, that a ship has arrived at Glasgow, from Boston in New-England, which brings the news of 16,000 men being in arms to oppose the landing of any troops from England; and the same letter adds, that every thing was in the utmost disorder. The Captain of this vessel had made oath before the Provost to the truth of this, and more particulars are daily expected.

Sunday morning several journeymen weavers assembled in a body, and went armed with fire-arms, cutlasses, &c. and cut the work out of the looms of another weaver near the Ducking-pond, in Coverly-fields, near Bethnal-green.

Yesterday at noon Mr. Bingley was bailed before the Right Hon. the Lord Mansfield, and discharged from his imprisonment.

They write from Trieste, that Francis Archangeli, who murdered the celebrated Abbe Winkelman on the 9th of June last (as formerly mentioned) was broke on the wheel on the 20th ult. pursuant to his sentence.

Letters from Hambourg speak much of divers Treaties of Subsidy, concluded by France with different Princes of the Empire, and of others which she is negotiating with other Princes.

Aug. 23. Friday last the Lord Bishop of Landaff had the honour to kiss his Majesty's hand on his being promoted to the Bishoprick of Bangor.

One of this morning's papers says, A correspondent, on whose veracity we can depend, has sent us the following authentic intelligence, which Adm—n received yesterday by an express from Bolton.

"The Assembly have unanimously refused to submit to any tax or imposition whatever from Great Britain, and sent their resolution to the Governor, in answer to his message requiring submission to the

acts of Parliament, and to erase out of their journals whatever impeached or rejected the authority of the British legislature. Upon this the Governor dissolved the Assembly, pursuant to his instructions; However, before he could effect this, they sent their Resolution to the other Colonies."

Extract of a letter from Portsmouth, Aug. 21.

"A schooner is arrived here with a packet from North America; the officer immediately set out for London express. A report prevails, that the Americans have hung out a flag of defiance, that they are up, and have used the 23d regiment very roughly. But we cannot entirely depend upon this report."

To the Printer of the S. J. CHRONICLE.

WHY, Sir, all this Fuss and do about the Americans, and the Taxation laid on them; and so much said in Vindication of their Obstinacy to the Laws of their Mother country? A certain Author speaking of the Government of the Colonies says, the Laws in the Colonies may be altered or even repealed by the British Parliament; and the Militia, with the levying of the Customs, is entirely in the Crown of Great Britain.

Aug. 17, 1768.

H. Z.

Aug. 24. Most of the moderate sensible Americans seem to be of opinion, that the resolution of the assembly of Bolton (of which we gave an account in our paper of yesterday) will not be followed by any other of the colonies.

Some Gentlemen lately arrived from N. America, report, that several of his Majesty's ships had rendezvoused from different stations in the harbour of Bolton, which, with the two regiments sent there from Ireland, 'tis thought will be sufficient to quell all disturbances.

Letters from Glasgow, by Monday's post bring advice, that a Captain of a merchantman just arrived there, after a very short passage from Bolton, had made affidavit before the Provost, "that at the time of his sailing from thence, upwards of ten thousand men had taken up arms, and had declared themselves resolved to oppose any military force that should be sent against them."

A friendly agreement with our North-American Brethren is thought a right measure, merely because it is the interest of France and Spain that we should not agree.

The Earl of Rochester is to be revived in the person of a certain very popular Commoner.

Last week a gardener sent from Guilford a very elegant desert of fruit to Mr. Wilkes at the King's Bench, on account of his daughter's birth-day, which was last Tuesday; for which Miss Wilkes presented him with a purse of gold.

Aug. 25. The Nancy and Polly, Johnson, from Belhaven in Potomack River, for Liverpool, on the 6th inst. in lat. 49, 50, long. 15, 00, from London, met with a violent gale, in which the lost all her masts and started a butt, the Captain and crew, except two which went down in the ship, took to the boat, and were providentially taken up four days after by a Dutchman, and landed at Sedmouth.

Aug. 26. Monday about four o'clock in the morning, an Italian Prince arrived at the gentlemen's Hotel in King-street, St. James's, from Italy; the same day her Highness the Princess Barbarigo paid him a visit at the said Hotel.

It is reported, that a remonstrance will shortly be made by our Court to the Republic of Genoa, shewing the pernicious consequences of suffering the French to get footing in Corfica, particularly respecting the liberty, trade, and commerce of the Genoese, which will be in such a precarious situation in case the French become masters of Corfica, that it will be in the power of France totally to subvert and destroy them whenever she thinks proper.

We are informed, that a plan of accommodation is actually on foot respecting North-America, which, without wounding the dignity of Government, will effectually settle all differences between Great-Britain and her Colonies.

They write from Antigua, that it was thought not only that island, but also Nevis, St. Christopher's, Montserrat, &c. would soon follow the exam-

our own Consumption, and by this Means keep in the Pro-
duce the Sums of Money, which are annually remitted for
his single Commodity, and when once sent from hence, are
entirely lost to us. Whereas by manufacturing of it here,
Numbers of poor People are daily employed, and the Money
still remains in a circulating State; it is therefore hoped that
all Persons will be as careful as possible, in favouring that,
which evidently appears will be of public Utility.
N. B. As the Paper Mill is now completed, those who have
Rags by them, are requested to bring them in, and all Per-
sons who want to be supplied with Paper of this Manufac-
ture, are desired to send their Orders to John Keating, which
shall be completed as fast as possible.
New-York, July 1768.

The New-York Paper Manufactory
Ready Money for clean Linen Rags, may be had of JOHN
KEATING, between the Fly-Market and Burling-Slip.
All those who have the Welfare of
the Country at Heart, are desired seriously to consider the
Importance of a Paper Manufactory to this Government, and
how much Good they may do it, by preserving the Linen
Rags, particularly the fine ones, which would be otherwise
useless; their saving of Rags is recommended, not to much
for the Money which they will immediately fetch (which can
be but a trifle) but the Benefit which will accrue to the Pub-
lic in general if the Manufactory is supplied with Rags, so
as to enable us to make a sufficient Quantity of Paper, for

ple of Barbadoes, in desiring to be taken altogether under the protection of Great-Britain.

They write from Minorea, that the vessels of that island have been threatened by the French with instant seizure and confiscation, if found carrying on any kind of trade or correspondence with Corsica.

They write from Paris, that a Corsican Nobleman, just arrived there with a commission from General Paoli, had been denied an audience, either of the King or Ministry, and ordered to depart France immediately on pain of being laid under an arrest.

The Leith, of Leith, Sheen, is arrived there from Greenland, with 4½ sizeable fish, 90 seals, two unicorns, &c.

The disturbances on the river amongst the fallors having now broke out again, several of his Majesty's sloops and cutters are ordered up the river, to protect the outward-bound ships from any insult; and Wednesday night an additional guard of one hundred men was sent for to Wapping, in order to quell the Rioters.

Aug. 27. It is thought that the Parliament will assemble earlier than usual this winter, on account of the critical situation of affairs in America.

The number of contested elections in Ireland is prodigious, the House of Commons consists of three hundred members, and, we are told, by a gentleman of veracity from Dublin, that there will be at least 150 petitions for undue returns to Parliament.

We hear it was scarce ever known, in any lottery, of so little demand for tickets, principally owing to the extravagant price they have been artfully kept up at; but the public may be assured, they will be soon much lower.

We hear that orders are sent to Ireland for two more regiments to be in readiness to embark for North-America.

Col. Charles Hotham is appointed to the command of the 15th regiment of foot, late Sir Jeffery Amherst's.

We hear Sir Jeffery Amherst has been offered a peerage.

Aug. 29. Prince Henry of Prussia, brother to his Prussian Majesty, who arrived in London last Friday se'nnight, is esteem'd, by the military in general, to be one of the greatest Commanders of the age: Some have not scrupled even to rank him beyond the King his brother, as being possessed of all the intrepidity, penetration, presence of mind, and other warlike accomplishments, which characterize the monarch, but happily tempered with that equally requisite coolness and prudence, which the fiery spirit of the King, in the heat of action, sometimes impels him to burst through, to the most imminent hazard of himself and army.—We do not doubt but that a hero like Prince Henry, in a nation of heroes like our own, will be received and entertained with that cordiality, admiration, and respect, which may be naturally expected from affections so truly homogenial.—If such a man was to head the Malcontents of an injured insulted nation, what consequences might follow!

Aug. 30. The following article is copied from the Gloucester Journal, viz. "We have been favoured with a little Anecdote of the P. of W. and its authenticity may be depended on.—The P. was very unruly the other day, and made so much noise that the K. told him to go about his business. No indeed, he would not go, nor he;—so the Lady Governess was sent for; and the young Hero handed up stairs.—Presently after he gives his Governess the slip, runs down, just opens the parlour door to thrust in his head, and shouts, *Wilkes and Liberty*."

A native of Corsica being the other day at a coffee-house near St. James's, was asked by some of the company, What would his nation do, in case of General Paoli being either poisoned or assassinated by his enemies, as has more than once been attempted? To which he heroically answered, "Should this misfortune happen, every Corsican would be a Paoli to revenge his death, and defend his country!" It is rumoured that a recruiting order will speedily be sent through all parts of England.

August 30. A letter from Quebec says, "Upon a farther enquiry into the crimes for which a gentleman has been arrested, it is thought his accusers will find it not a very easy matter to make out their charge against him."

We are informed, that a noble Lord has declined giving his opinion hitherto, on the properest measures to be pursued by the administration, respecting the present troubles in North-America.

We hear two regiments of Highlanders are speedily to be raised in Scotland, and intended for garrison duty in North-America.

dily to be raised in Scotland, and intended for garrison duty in North-America.

Extract of a Letter from Boston, July 3, 1768.

"The people here are all in an uproar anent the new duties. About 14 days ago the Commissioners, and other officers of the Customs, were obliged to take shelter on board the Romney Man of War, they now hold the board at Castle William. The great and general court have refused to resume the vote anent the circular Letter part of last Session, and on Thursday the Governor prorogued them in consequence of their refusal till the 3d of August, and on Monday they are to be dissolved by proclamation.

"The people talk of doing great things, to spend the last drop of their blood for their Liberty, but when things come to the push, which they must do soon, it will be found that all their boasts are *Vox et preterea nihil*." [Scotch Gazette.]

A letter from Leghorn, dated July 27, says, A report has prevailed here for some days, that an English ship, laden with cannon and ammunition for the use of the Malecontents of the Corsica hath been visited and stoped by a French frigate of war. If this is true, it will occasion great disputes between the two Courts.

They write from Leghorn, that a French man of war of thirty guns, in attempting to land some troops at Fornali, in the gulf of Fiorenzo, had been beat off with the loss of all her masts, and seventy men killed and wounded, by a Corsican battery of twenty pieces of cannon; besides two transports in her convoy, sunk near the harbour's mouth.

A C A R D.

THE Freeholders of Middlesex present their Compliments to Sir SIDNEY Stafford Smythe, Knight, and have a due Sense of the decent and polite Treatment their Member received from him at Guildford, both as a Gentleman and a Judge. They beg to know if he is descended from, or related to, the Family of the gallant Sir Philip SYDNEY, Knight, the finest Gentleman England ever produced, or to the Family of that true Lover of Liberty, Algernon SYDNEY, Esq;

Aug. 18. It is said that Paoli has transmitted a spirited memorial to the Court of Versailles.

Bristol, Aug. 20. Last week the wife of a labouring man at Nutton, in the parish of Trowbridge, Wilts, was delivered of five children, three boys and two girls, which were christened the same week; and are, with the mother, all likely to do well.

Kilkenny, August 20. Yesterday the 46th regiment of foot, commanded by Col. John Pomeroy, began its march from hence for Corke, where they are to embark with the 6th regiment, Col. Mackay's, on board the transports which were immediately to proceed to Boston in America.
